

Advanced, Cost-effective, and Reliable HART[®] Communication Products

A Complete HART Configuration System

ProComSol, Ltd (Process Communications Solutions) was founded in 2005 dedicated to providing products for users of HART technology. We established our reputation with reliable USB HART modems certified by the HART Communication Foundation. The HM-USB-ISO HART Modem is the most cost-effective certified USB HART Modem available.

We are known for several technical innovations. Among them is our Bluetooth HART modem which first appeared on the market in 2005. This makes us the first to offer wireless capabilities for HART users. We were also the first to offer products based on SDC-625 technology. Our DevComDroid Smart Communicator App for Android is the first product to offer full DD capabilities on the Android platform.

Our HART Communicator software products (DevCom2000 and DevComDroid) have established themselves as the only real alternatives to expensive communicators. DevCom2000 was originally released in 2006 as the first product to use the HART Communication Foundation's SDC-625 technology. Constant and steady improvements over the years have made DevCom2000 reliable, convenient, and feature rich.

ProComSol has always been a member of the HART Communication Foundation. We are committed to improving the HART protocol and offering high quality, reliable, and innovative products using this amazing technology. If you do not see products or features that you need, please contact us. We promise to work hard to meet your needs.

Thank you for your interest in our products,
ProComSol, Ltd

Some of our most popular products:

[HM-USB-ISO](#)

USB HART Modem, Isolated - Small and lightweight, ideal for mobile or desktop applications. Registered with HCF to meet the HART Specifications.

[HM-BT-BAT-ER](#)

Bluetooth HART Modem, Extended Range - Increase safety and productivity with wireless advantages. Reduce ladder climbing and laptop balancing. Battery powered. 275 ft range.

[DevCom2000](#)

DevCom2000 Smart Device Communicator Software - Perform complete HART device configuration using your PC. Uses the device DD so all device parameters are accessible, including Methods.
